

DECODING THE UNIVERSE

The work of Taronga's Scientists

VIDEO ACTIVITY

Before watching the video

Why do you think there are Scientists at Taronga Zoo? _____

After watching one (or all) of the videos answer the following questions.

What is something new I have learnt about the science that takes place at the zoo?

How is this work helping species through Australia and across the world? _____

What are three questions I have about the videos? _____

Think about which of the videos you would like to know more about. Conduct some independent research on the species in question or the purpose of the project as mentioned by the scientist.

If you'd like more information reach out to the Taronga Education team.
